

Lower your phone costs and modernize your voice system with IdeaTek Hosted VoIP

IdeaTek Hosted VoIP Systems

What is VoIP?

VoIP stands for Voice Over Internet Protocol. It's a voice system that allows you to make calls over the internet

Why IdeaTek?

For more than 16 years, IdeaTek has been committed to serving the telecom needs of south central Kansas. Our fully fiber optic network ensures reliable, clear and efficient calling. Access phone service and internet over the same broadband connection.

COST SAVINGS

Save money over traditional phone service, while future-proofing your communications system.

POPULAR FEATURES

Enjoy dozens of popular features without hidden fees.

- Unlimited domestic long distance
- Admin portal for greater control
- Disaster recovery
- Voicemail to email
- Conference bridge
- Remote office
- And more!

LOWER MAINTENANCE FEES

Not only do you avoid paying the huge up-front costs of a PBX, our hosted VoIP allows you to reduce the high maintenance and repair costs of aging equipment. Updates and repairs are handled by our staff so you can focus on your core business.

SERVICE AND SUPPORT

Our Buhler-based customer support team is here to serve your needs 24/7/365. Customer support is included in the cost of our service, so you don't need to worry about the hassle of budgeting for unforeseen issues.

CUSTOM SOLUTIONS

From small businesses to enterprise operations, our team has the experience to develop a right-sized system for your industry.

EASY SETUP

Switching to a new phone system doesn't have to be a hassle. Our dedicated installers make the transition quick and easy.

EMERGENCY REROUTING

Enjoy the ease of mind that comes with a hosted system. In the event of a power or internet outage, our system enables automatic call routing to your mobile phone or another number of your choice.

Better service for less money? What are you waiting for?
